		Revision Date: -
		Revision No:

Kayakapi Premium Caves Cappadocia Boutique Hotel has a **Zero Waste Certificate** within the scope of the Zero Waste Project. Considering the product life cycle in our processes, first of all, the policies of reduction at source, separation at source and reuse of waste generated within our facility are implemented.

Industrial hazardous and non-hazardous wastes are generated in our facility. Hazardous wastes are collected **in the hazardous waste temporary storage area** permitted by the Provincial Directorate of Environment, Urbanization and Climate Change and sent to licensed facilities with licensed vehicles and drivers via MOTAT (mobile waste tracking) system.

Non-hazardous wastes are collected **in the non-hazardous waste temporary storage area** and delivered to licensed facilities. In the management of these processes, our operational personnel are in charge.

Nearly 100% of the hazardous and non-hazardous waste generated at our facility is recycled **by licensed facilities as plastic, wood, metal, battery, oil, etc.** The leftovers from the kitchens and restaurants are sent to feeding points for stray animals in order to prevent waste.
